AI Governance for Legal Professionals Certification

📍 **E-Learning**
Modality

🔤 **English**
Language

The AI Governance for Legal Professionals certification is a practical, beginner-friendly program designed to help legal practitioners understand and manage the use of AI within their organizations. Through four targeted courses, a capstone project, and a final exam, participants gain foundational AI knowledge, learn how to identify and assess AI-related risks, and apply leading governance standards like the EU AI Act, ISO/IEC 42001, and the NIST AI Risk Management Framework and be able to govern the use of AI systems to maximize business value while minimizing the risks. This training prepares legal professionals to confidently support responsible, ethical, and compliant AI strategies across industries.

Learning Objectives

By the end of the course, you will be able to:

⊘ Gain foundational AI knowledge

⊘ Understand how to identify and assess AI-related risks

⊘ Apply leading governance standards like the EU AI Act, ISO/IEC 42001, and the NIST AI Risk Management Framework

⊘ Govern the use of AI systems to maximize business value while minimizing the risks

Who Should Attend?

🔍 Legal professionals overseeing or influencing AI use within their organisations

👤 Suitable for those who need to understand AI risks and governance.
