

# Algorithmic Risk & Impact Assessments

 E-Learning  
Modality

 English  
Language

This course teaches you a systematic approach to algorithmic risk and ethical impact assessments, which is a necessary skill for practitioners in the space of emerging technology. The primary focus of this course is on BABL AI's particular framework for detecting and evaluating algorithmic risk and impact, and connections to other impact assessment frameworks are made in BABL AI's AI Governance & Risk Management course.

## Learning Objectives

By the end of the course, you will be able to:

- ✓ Know the language of risk assessments
- ✓ Recognize the different goals of risk assessments
- ✓ Plan and perform basic risk assessments
- ✓ Recognize deficiencies in risk assessments performed by others

## Who Should Attend?

- 🔍 AI governance, risk, and compliance professionals
- 👤 Consultants in AI Ethics and Governance
- 📋 Procurement specialists who are concerned about risks due to AI vendors

## • Certification & Exam

 **Certificate:** Certified Algorithmic Risk & Impact Assessments Professional (by BABL AI)

 **Exam:** No exam, just quizzes
