 1 days
Duration

Build a solid foundation in Digital Operational Resilience with the DORA Essentials course. This entry-level programme provides an accessible introduction to the Digital Operational Resilience Act (DORA) — covering core regulatory concepts and essential practices to strengthen IT security and support compliance in the financial sector.

Whether you're in IT, compliance, or operations, this course equips you with the knowledge to support digital risk management and resilience efforts. Upon passing the exam, you'll earn the Certified DORA Essentials credential — a valuable stepping stone for career advancement in digital governance and regulation.

Learning Objectives

By the end of the course, you will be able to:

-  Understand DORA fundamentals: Learn the core concepts, scope, and objectives of the Digital Operational Resilience Act.
-  Identify essential compliance requirements: Gain awareness of obligations related to ICT risk management, incident response, testing, and oversight.
-  Support organisational resilience: Contribute to your organisation's efforts to meet DORA standards and manage digital risks effectively.

Who Should Attend?

-  IT security analysts, officers, and project managers
-  Cybersecurity engineers, QA managers, and risk professionals
-  Compliance officers, auditors, and regulatory specialists
-  COOs, CFOs, and business owners
-  Financial services professionals in banking, insurance, or asset management
