

Data Protection Essentials

 Self-study
Online instructor-led
Modality

 English
Language

 1 day
Duration

Start your journey in data protection and privacy with the Data Protection Essentials certification. This one-day, entry-level course introduces the core concepts of data protection frameworks such as the General Data Protection Regulation (GDPR), the Data Protection Directive, and the Data Protection Convention.

You'll learn the fundamentals of personal data processing, data subjects' rights, cross-border transfers, and data breach consequences — all essential to support compliance and privacy awareness in any role. Upon passing the exam, you'll earn the Certified Data Protection Essentials credential, demonstrating your understanding of foundational data protection principles.

Learning Objectives

By the end of the course, you will be able to:

-  Understand the scope, principles, and structure of GDPR and related data protection frameworks
-  Recognise the rights of data subjects and obligations of data controllers and processors
-  Identify compliance requirements for cross-border data flows and data breach handling

Who Should Attend?

-  Data or Privacy Managers
-  Data Protection Officers (DPOs)
-  Data Controllers and Data Processors
-  Identify compliance requirements for cross-border data flows and data breach handling

Certification & Exam

-  **No prerequisites** required, just signing the Treccert Code of Ethics
