

# Data Protection Specialist in Remote Work

 Self-study  
Online instructor-led  
Modality

 English  
Language

 Duration

Strengthen your ability to protect personal data in decentralised environments with the Data Protection Specialist in Remote Work (DPSRW) certification by TRECCERT. This course is designed to equip professionals with the skills and knowledge to apply data protection laws, principles, and technical/organisational measures (TOMs) in remote work settings.

Through practical examples and targeted learning, participants will learn how to mitigate privacy risks, implement robust safeguards, and ensure legal compliance when handling data across distributed teams. Upon passing the exam, you'll earn the Certified DPSRW credential — validating your expertise in remote data protection and compliance.

## Learning Objectives

By the end of the course, you will be able to:

-  Understand data protection requirements applicable to remote work environments
-  Apply legal, regulatory, and technical controls to protect personal data in distributed settings
-  Recommend and implement effective technical and organisational measures (TOMs)

## • Who Should Attend?

- 🔍 Data Protection Specialists
- 👤 Privacy professionals managing remote teams
- 🛡️ Compliance officers, DPOs, and IT security staff supporting remote work models
- 📋 Any professional committed to enforcing data security in remote environments

## • Certification & Exam

- 🚫 **No prerequisites** required, just signing the Treccert Code of Ethics
- 📄 **Exam:** 40 multiple-choice questions, 60 minutes, closed book, passing score 60%. Must be scheduled within one year of purchase.
