

EU AI ACT: AI Fundamentals

 **E-Learning**
Modality

 **English**
Language

 **6 weeks**
Duration

This course gives professionals a practical overview of the EU AI Act. It breaks down what the Act requires from organisations developing, using, or distributing AI systems in the EU.

Participants will learn how to identify prohibited AI practices, determine whether a system qualifies as high-risk, and understand the obligations for General-Purpose AI. The course also outlines the responsibilities of deployers and users, and what AI providers must do to legally place systems on the EU market. Ideal for teams needing to grasp regulatory impacts and ensure compliance without wasting time on legal jargon.

Learning Objectives

By the end of the course, you will be able to:

- ✓ Understand the AI Act's purpose, scope, and structure
- ✓ Identify prohibited AI practices and related penalties
- ✓ Classify high-risk AI systems and apply regulatory requirements
- ✓ Understand obligations for General-Purpose AI (GPAI) models
- ✓ Learn deployer/user responsibilities including transparency and rights assessments

Who Should Attend?

-  AI product and project leads
-  Legal, compliance, and governance teams
-  Engineers and developers working with AI
-  Privacy officers and DPOs
-  Innovation and ethics managers

What's Included?

-  Includes access eLearning platform with video lessons, exercises, and practical case questions
-  Certificate of course completion
