

• EU AI ACT: The AI System in Practice

 **E-Learning**
Modality

 **English**
Language

 **3 weeks**
Duration

This course covers how to manage AI systems after deployment under the EU AI Act. It focuses on post-market monitoring, using regulatory sandboxes, and selecting compliant AI systems. Designed for business and technical leads, it helps align AI procurement, performance, and risk management with regulatory expectations.

• Learning Objectives

By the end of the course, you will be able to:

- ✔ Monitor AI system performance and report incidents under the EU AI Act
- ✔ Understand regulatory sandboxes and SME-specific innovation support
- ✔ Apply practical steps for procuring compliant AI solutions
- ✔ Identify and mitigate risks in post-deployment environments
- ✔ Evaluate AI systems for both business needs and legal conformity

• Who Should Attend?

- 🔍 AI project managers and product owners
- 📄 Legal and compliance teams
- 🏢 Innovation officers and procurement leads
- 👤 Risk and governance professionals

What's Included?

-  Includes access eLearning platform with video lessons, exercises, and practical case questions
-  Certificate of course completion
