🕓 **12 weeks**
Duration

The "EU AI Act: All-in-One" course offers a comprehensive and practical guide to the European Union Artificial Intelligence Act. It is designed for managers, executives, and professionals seeking to understand and apply the regulation across various sectors.

This course covers the full regulatory scope of the AI Act, from prohibited AI practices to high-risk systems, General Purpose AI, governance, post-market monitoring, and innovation support. Participants will gain the knowledge to ensure their AI systems are legally compliant, technically robust, and aligned with ethical and human rights principles.

Learning Objectives

By the end of the course, you will be able to:

⊘ Interpret the structure, scope, and legal objectives of the EU AI Act.

⊘ Classify AI systems by risk level and implement relevant compliance measures.

⊘ Explore post-market monitoring and incident response duties.

⊘ Learn about support mechanisms like regulatory sandboxes and innovation safeguards.

Who Should Attend?

Q AI project managers and executives

Legal and compliance professionals

Product and data governance leads

Innovation officers

What's Included?

Includes access eLearning platform with video lessons, exercises, and practical case questions

Certificate of course completion
