# EU AI Act Quality Management System Certification

E-Learning
Modality

English
Language

Master the core requirements of a Quality Management System (QMS) for high-risk AI systems under the EU AI Act. In just 3–5 days, this course gives you the tools to design, implement, and audit QMS frameworks tailored to Annex VII of the regulation — aligned with international standards like ISO/IEC 42001 and ISO 9001.

This programme prepares professionals for certification by BABL AI as EU AI Act QMS Practitioners, with practical exercises, checklists, and a hands-on capstone focused on conformity assessment and regulatory alignment.

Learning Objectives

By the end of the course, you will be able to:

⊘ Interpret the EU AI Act's obligations related to high-risk systems

⊘ Design and operationalise a QMS aligned with Annex VII

⊘ Integrate ISO/IEC 42001 and ISO 9001 principles into AI-specific governance

⊘ Prepare for regulatory audits and conformity assessments

⊘ Contribute to documentation, monitoring, and lifecycle oversight of AI systems

Who Should Attend?

🔍 Compliance, risk, and quality professionals

👤 Regulatory and legal teams preparing for AI Act compliance

💻 Product and technical managers working on high-risk AI systems

💻 Internal and external auditors focused on QMS evaluation

🛡 Consultants and assessors supporting conformity assessments

Certification & Exam

📑 **Certificate:** EU AI Act QMS Practitioner

📅 **Exam:** 30 multiple-choice questions (1 hour, online, proctored)

💻 **Capstone:** Mandatory hands-on project, scored ≥70%

🔁 **Retake:** Free retake offered within 12 months

📄 **CPD Credits:** 12+ hours/year to maintain certification

What's Included?

📷 Video lectures, quizzes, slides and downloadable resources

💻 Capstone Project & Certification Exam

💬 Slack community access + Weekly Q&A with BABL faculty

⚖ AI governance toolkit aligned to the EU AI Act
