

EU AI Act: Understanding High-Risk AI Systems

 E-Learning
Modality

 English
Language

 1 week
Duration

This course focuses on one of the most critical aspects of the EU AI Act: high-risk AI systems. It provides professionals with a clear, practical understanding of how high-risk AI is defined, which systems fall under this category, and what compliance requires. Participants will learn how to assess risk, implement control measures, and meet legal obligations to avoid regulatory penalties and operational failures. The course also explores how to ensure these systems are transparent, technically robust, and aligned with EU fundamental rights.

Learning Objectives

By the end of the course, you will be able to:

- ✓ Define high-risk AI systems according to the EU AI Act criteria
- ✓ Identify common high-risk use cases and classification triggers
- ✓ Understand obligations related to data quality, documentation, human oversight, and robustness
- ✓ Apply risk management principles to prevent misuse or system failures
- ✓ Ensure alignment with EU compliance and safety requirements

Who Should Attend?

-  Compliance officers and legal advisors
-  Risk and ethics managers
-  AI product managers and system owners
-  Government and public sector tech advisors
-  Procurement and regulatory teams

What's Included?

-  Includes access eLearning platform with video lessons, exercises, and practical case questions
-  Certificate of course completion
