

ISO 27001 Foundation

**E-Learning**Online instructor-led
Self-study

Modality

**English**

Spanish

Language

**2 days**

Duration

Strengthen your role in information security governance and compliance with the ISO/IEC 27001 Foundation course. In just 2 days, you'll learn the core elements of an Information Security Management System (ISMS), including policy creation, process definition, performance evaluation, management review, internal audit, and continual improvement.

By completing this course, you'll be prepared to take the official certification exam and apply for the PECB Certificate Holder in ISO/IEC 27001:2022 Foundation — a recognised credential that validates your knowledge of the principles, framework, and best practices of information security management.

Learning Objectives

By the end of the course, you will be able to:

Describe the main information security management concepts, principles, and definitions

Explain the main ISO/IEC 27001:2022 requirements for an information security management system (ISMS)

Identify approaches, methods, and techniques used for the implementation and management of an ISMS

• Who Should Attend?

-  Professionals looking to understand ISO/IEC 27001:2022 requirements for an ISMS
-  Managers and consultants seeking to know more about information security
-  Individuals involved in or responsible for organisational information security
-  Those considering a career in information security

• Course Agenda

- Day 1** | Introduction to Information Security Management System (ISMS) concepts as required by ISO/IEC 27001:2022
- Day 2** | Information Security Management System requirements and Certificate Exam

• What's Included?

-  200+ pages of content, examples, exercises, and best practices
-  Exam and certification fees included
-  Course completion attestation, granting 14 CPD credits.
