 3 days  
Duration

Advance your expertise in Information Security Risk Management (ISRM) with the ISO/IEC 27005 Professional course by TRECCERT. This 3-day advanced programme is designed to provide an in-depth understanding of the ISO/IEC 27005 guidelines for identifying, assessing, treating, and monitoring information security risks across organisations.

Participants will gain the skills to lead ISRM processes, design treatment plans, and embed risk management into broader ISMS programmes. Upon passing the exam, you'll earn the Certified ISO/IEC 27005 Professional credential — validating your leadership in managing security threats and aligning with global risk standards.

## Learning Objectives

By the end of the course, you will be able to:

-  Understand ISO/IEC 27005 principles, terminology, and process stages for ISRM
-  Lead the implementation and continuous improvement of information security risk management activities
-  Integrate risk analysis, treatment, monitoring, and communication into ISMS and business strategy

## Who Should Attend?

-  Information Security Risk Managers, Team Leaders, and Technicians
-  CISOs, CIOs, COOs, and business owners
-  Risk specialists, Model Risk Specialist and Risk Manager

## Certification & Exam
