 2 days
Duration

Gain a foundational understanding of Information Security Incident Management with the ISO/IEC 27035 Foundation course. In just 2 days, you'll learn how to implement an incident management plan and handle security incidents effectively using the principles and structure of ISO/IEC 27035.

This course introduces key concepts and process approaches for detecting, reporting, assessing, and responding to information security incidents. Upon completing the course and passing the exam, you can apply for the PECB Certified ISO/IEC 27035 Foundation credential — a recognition of your knowledge in incident handling aligned with international standards.

Learning Objectives

By the end of the course, you will be able to:

-  Understand the basic concepts of Information Security Incident Management
-  Acknowledge the correlation between ISO/IEC 27035 and other standards and regulatory frameworks
-  Understand the process approaches used to effectively manage Information Security Incidents

• Who Should Attend?

-  Individuals interested in Information Security Incident Management process
-  Individuals seeking to gain knowledge about the main principles and concepts of Information Security Incident Management
