5 days

Duration

Master the implementation of a Privacy Information Management System (PIMS) aligned with ISO/IEC 27701. In just 5 days, the ISO/IEC 27701 Lead Implementer course equips you to plan, deploy, and manage privacy controls that ensure compliance with global data protection requirements and enhance trust across your organisation.

Through practical exercises, real-life scenarios, and expert guidance, this course builds your ability to interpret ISO/IEC 27701 requirements and integrate them with ISO/IEC 27001. After passing the exam, you'll be eligible for the PECB Certified ISO/IEC 27701 Lead Implementer credential — a recognised validation of your privacy implementation expertise.

Learning Objectives

By the end of the course, you will be able to:

- O Understand and apply the core principles of privacy information management
- Interpret ISO/IEC 27701 requirements in organisational contexts
- Align ISO/IEC 27701 with ISO/IEC 27001 and related frameworks
- Lead the implementation, operation, and continual improvement of a PIMS

Prepare your organisation for third-party certification audits

Who Should Attend?

- Managers and consultants responsible for privacy and data governance
- Advisors and experts managing the implementation of PIMS
- individuals overseeing compliance with PII and data protection obligations
- Members of ISMS or PIMS implementation teams

What's Included?

- 450+ pages of training content, case studies, and implementation tools
- Certification and exam fees
- Ocurse completion attestation, granting 31 CPD credits.

Course Agenda

Day 1 Introduction to ISO/IEC 27701 and initiation of a PIMS

- Training course objectives and structure
