Gain the skills to design, implement, and manage Artificial Intelligence Management Systems (AIMS) with the ISO/IEC 42001 Lead Implementer course by TRECCERT. This expert-level programme provides a comprehensive approach to AIMS implementation, based on the Plan-Do-Check-Act model and aligned with ISO/IEC 42001.

Learn how to align AI initiatives with organisational strategy, manage AI-related risks, and embed governance and ethical considerations into AI operations. After passing the exam, you'll earn the Certified ISO/IEC 42001 Lead Implementer credential — a globally recognised qualification for professionals driving responsible AI adoption and operationalisation.

Learning Objectives

By the end of the course, you will be able to:

- Define the scope, resources, and governance objectives of an AIMS aligned with organisational strategy

- Develop an AIMS using a risk-driven approach that meets ISO/IEC 42001 requirements

⊘ Assess system effectiveness through audits and performance metrics

⊘ Apply corrective and preventive actions to continually enhance AIMS suitability and performance

Who Should Attend?

🔍 Heads of Compliance, Risk, or IT

👤 AI Governance Analysts, Managers, or Consultants

🛡 Compliance Officers or professionals responsible for AI governance implementation
