 2 days
Duration

Get started with the fundamentals of Artificial Intelligence Management Systems (AIMS) in the ISO/IEC 42001 Practitioner course by TRECCERT. This introductory-level training provides a clear understanding of AIMS concepts, terminology, frameworks, tools, and techniques — helping individuals and teams contribute to responsible AI governance and implementation.

Learn the benefits of applying ISO/IEC 42001 in your organisation, build your understanding of compliance expectations, and develop the foundational knowledge needed to support AI risk management and oversight. Upon passing the exam, you'll earn the Certified ISO/IEC 42001 Practitioner credential — a valuable step toward becoming a recognised contributor in AI governance.

Learning Objectives

By the end of the course, you will be able to:

-  Understand the basic terminology, structure, and principles of ISO/IEC 42001

- ✓ Describe the value of implementing an AIMS to support responsible and sustainable AI deployment
- ✓ Identify key AI governance best practices and their role in organisational risk management

• Who Should Attend?

- 🔍 Information security and cybersecurity specialists
- 👤 Compliance officers managing AI governance
- 🛡️ Internal and external auditors
- 📖 Security analysts assessing AIMS
- 📋 Professionals responsible for auditing and maintaining AIMS

• Certification & Exam

- 🚫 **No prerequisites** required, just signing the Treccert Code of Ethics
- 📄 **Exam:** 50 multiple-choice questions, 60 minutes, open book, passing score 60%. Must be scheduled within one year of purchase.
- ✓ **Retake:** Free retake within 12 months if needed
- 📄 **Maintenance Fee:** First year included; fee applies from second year. Options: €90/year or €240 for three years paid upfront.

• What's Included?

- 📋 Trainer slides, quizzes, exercises, and structured study content
- 📄 Access to official practice exams
- ✓ Certification and exam fees included
