Tech Governance Institute

CORPORATE TRAINING CATALOGUE

July 2025

Corporate Training

The Tech Governance Institute offers globally recognised training and certification in **Artificial Intelligence, Information Security, and Privacy.** Our courses equip auditors, compliance and legal professionals, and tech leaders to manage digital risk with confidence, through accredited and practical programmes offered online or in person.

Who is it for?

Tailored for

📜 Audit firms	💼 Consultancies	🏛 Governance teams

that implement and manage digital systems.

Why now?

AI is becoming increasingly autonomous, with organisations soon relying on networks of agents making decisions independently. This has created urgent governance challenges—greater complexity, higher risk exposure, and stricter regulatory demands (e.g. EU AI Act, ISO 42001). Developing governance skills today means smoother compliance tomorrow.

What we offer

- **In-demand skills:** Focused on AI, Data Privacy, and Cybersecurity — the most critical areas for today's economy.
- **Curated, certificate-backed programmes:** Aligned with your organisation's skill needs and delivered by industry experts.
- **Flexible learning formats:** Self-paced, instructor-led, online or in-person, adapted to your team's pace and context.

Our areas of expertise

Artificial Intelligence

We provide structured training in AI governance to support organisations in managing ethical risks, meeting regulatory obligations, and addressing operational challenges when deploying AI systems in line with business objectives.

Information Security

We help organisations improve their resilience by providing practical skills to protect systems, prevent security breaches, and ensure business continuity.

Privacy

We equip teams to protect sensitive data, stay compliant, and retain customer trust, all while strengthening organisational resilience and employee professional growth.

Delivery formats we offer

On-site

Interactive sessions in a structured, face-to-face learning environment.

Online Instructor-led

Live online sessions that offer access from anywhere.

E-learning

Pre-recorded video courses, quizzes, and extra reading materials.

Self-study

Independent learning with full access to written course materials.
